## Consent Block

We want to get your reactions to some things that are going on in the country and with you. For more information you can review the study information sheet by visiting this link. Let's get started!

Now that you've seen the study information sheet are you ready to tell us what you think?

- ○ Yes, I wish to participate
- ○ No, I don't wish to participate

## Initial questions (pre-treatment)

How interested are you in politics and current events?

- ○ Very interested
- ○ Somewhat
- ○ Not very
- ○ Not at all

Have you ever visited a prediction market website such as Kalshi or Polymarket?

- ○ Yes, I've placed trades
- ○ Yes, but I've just browsed
- ○ I've heard of them but never visited
- ○ I've never heard of them

## Political Treatment -- Kalshi

The image below shows a prediction market — a website where people buy and sell shares based on what they think will happen in the future. A 'Yes' share pays out $1 if the event happens and nothing if it doesn't. The price of a share reflects what traders believe is the chance that the event will occur. For example, if 'Yes' shares for a candidate cost 21¢, traders believe that candidate has roughly a 21% chance of winning.
